

Wholesale Acquisition Cost (WAC) Information for Colorado Prescribers of Prescription Drugs
The information is accurate as of October 31, 2025.

PerioGard® (Chlorhexidine Gluconate Oral Rinse USP, 0.12%) Alcohol Free

The following amount reflects the Wholesale Acquisition Cost (“WAC”) of the listed drug, as established in pricing compendia. The listed WAC price does not necessarily reflect the actual price that a particular patient, provider, or payer will pay for the drug since it may not take into account discounts or other price concessions.

Marketed Product WAC:

PerioGard® (Chlorhexidine Gluconate Oral Rinse USP, 0.12%) Alcohol Free - \$7.50

Other Generic Prescription Drug Products:

The following drugs are therapeutic equivalents of Chlorhexidine Gluconate Oral Rinse USP, 0.12%, as defined by the Food and Drug Administration (FDA), and as listed in the FDA Approved Drug Products with Therapeutic Evaluations (commonly known as the Orange Book):

1. ACCLEAN Chlorhexidine Gluconate 0.12% Oral Rinse
2. Patterson Dental Chlorhexidine Gluconate 0.12% Oral Rinse
3. Paroex Chlorhexidine Gluconate 0.12% Oral Rinse

The inclusion of a generic prescription product in this report does not constitute an endorsement of the product as an appropriate interchangeable product that is safe and/or effective for a particular patient. Please refer to each product’s FDA-approved label and indication for further information regarding each drug and its safety and efficacy.
